How drug development is speeding up in the cloud

**Useful Websites and Mobile Apps for drug information**

HSE staff have access to the electronic version of the BNF, BNF for Children and Stockley’s Drug Interactions. Go to this page for access. If accessing from outside the HSE computer network you will need to log in using your OpenAthens account, then click on dashboard to reach our subscribed publications.
Drug information can also be obtained from our point-of-care tools. UpToDate provides both drug information as well as a drugs interactions section. DynaMed Plus also provides drug information. Simply put the name of the drug into the search box to access the required information. ClinicalKey also contains a drug monographs section.

To access these tools outside of the network, you will need to have an OpenAthens account, please click here to set one up.

Apps are also available for these 3 point-of-care tools. Contact ronan.hegarty@hse.ie for more information.
